BTP2D/TFP2D SERIES

PACKAGE BOOSTER PUMP & PACKAGE TRANSFER PUMP

Package Booster Pump

BTP2D GPS Series

Features

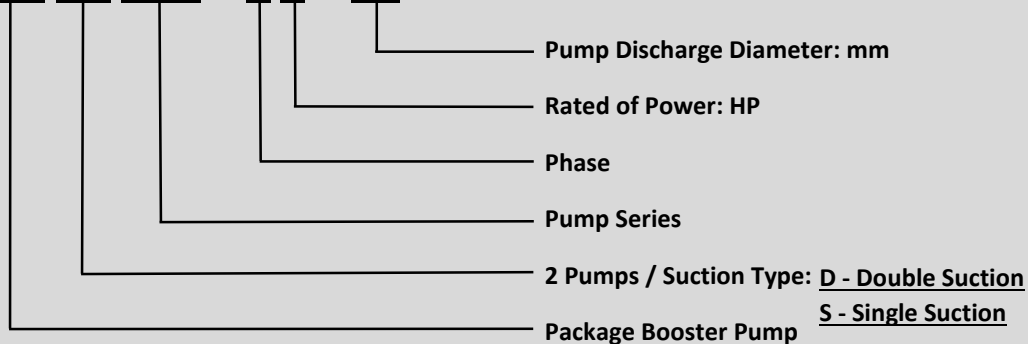

- Integrated with two units of coaxial centrifugal pumps.
- Operated by electronic control board with alternate and parallel function.
- Three levels detection in ground water tank: Start – Low cut off – Common.
- Have time delayer to prolong pumps operation after pressure switch working.
- Alarm buzzer/lamp: Low level – Overload 1 – Overload 2.
- All components are installed on common base fabricated by channel steel.
- Optional protection: Dry running protection

Applications

- Domestic high-rise building, Apartment
- Hotel, Commercial building, Department store
- Factories, Industrial application
- Hospital, University, School

Description (GPS Series)

BTP 2D GPS – 3 5 – 50

Package Booster Pump

BTP2D TPH Series

Features

- Integrated with two units of horizontal multi-stage centrifugal pumps.
- Pump main working parts made by stainless steel.
- Operated by electronic control board with alternate and parallel function.
- Three levels detection in ground water tank:
Start – Low cut off – Common.
- Have time delayer to prolong pumps operation after pressure switch working.
- Alarm buzzer/lamp: Low level – Overload 1 – Overload 2.
- All components are installed on common base fabricated by channel steel.
- Optional protection: Dry running protection

Applications

- Domestic high-rise building, Apartment
- Hotel, Commercial building, Department store
- Factories, Industrial application
- Hospital, University, School

Description (TPH Series)

BTP 2D TPH 4T – 4K

BTP2D Series

Specification

Description		BTP2D GPS Series	BTP2D TPH Series
Pump	Pump Type	Coaxial Centrifugal Pump	Horizontal Multi-Stage Centrifugal Pump
	Pump Series	GPS Series	TPH Series
	Pump Operation No.	2	2
	Max. Flow rate	Up to 112.4 m ³ /hr	Up to 28 m ³ /hr
	Max. Head	Up to 52 m	Up to 52 m
	Liquid Type & Temp	Clean Water, ≤ 60 °C	
Power Source	AC, 380V, 50Hz, 3 Phase	AC, 200 / 380 V, 50 Hz, 1 or 3 Phase	
Control Panel	Type	Electronic Control Board	
	Operation Model	Alternate and Parallel	
	Starting Method	D.O.L (Up to 7.5 kW) or Star-Delta (11 kW)	D.O.L (Direct On-Line)
	Level Control	3 Levels / Start - Low cut off - Common	
	Operation Key	Push Button & Selector Switch Type	
Installation Area	Indoor		
Pressure Tank	Type	Air Pre-Charged Diaphragm Tank	
	Capacity	100L / 200L / 300L / 500L / 750L / (Refer to Model)	
Pressure Switch	Model: KP35 (0.2-7.5 bar)		
Accessories	Control Panel, Pressure Tank, Pressure Switch, Pressure Gauge, Common Base, Piping & Valves, Electrical Wiring

Package Transfer Pump

Features

- Integrated with two units of coaxial centrifugal pumps.
- Operated by electronic control board with alternate and parallel function.
- Water level detectors in both ground and roof tank.
- Three levels detection in ground water tank: Start – Low cut off – Common.
- Four levels detection in roof water tank: Stop – Alternate – Parallel – Common.
- Alarm buzzer/lamp: Low level – Overload 1 – Overload 2.
- All components are installed on common base fabricated by channel steel.
- Optional protection: Dry running protection

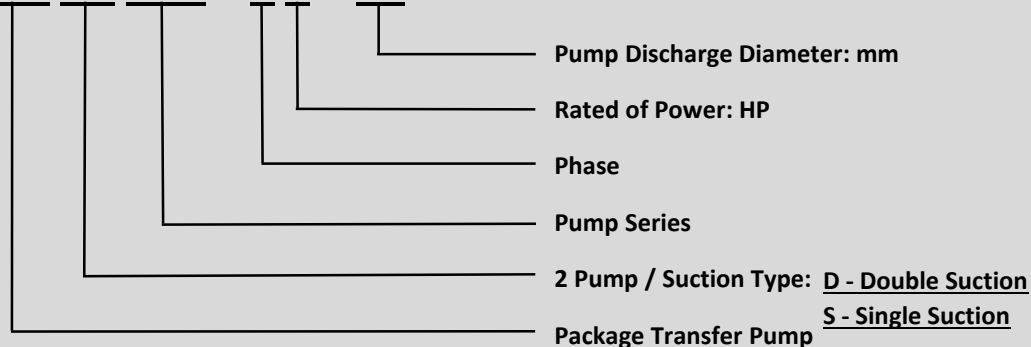

TFP2D GPS Series

Applications

- Domestic high-rise building, Apartment
- Hotel, Commercial building, Department store
- Factories, Industrial application
- Hospital, University, School

Description (GPS Series)

TFP 2D GPS – 3 5 – 50

Pump Discharge Diameter: mm

Rated of Power: HP

Phase

Pump Series

2 Pump / Suction Type: **D - Double Suction**

S - Single Suction

Package Transfer Pump

Package Transfer Pump

TFP2D TPH Series

Features

- Integrated with two units of horizontal multi-stage centrifugal pumps.
- Pump main working parts made by stainless steel.
- Operated by electronic control board with alternate and parallel function.
- Water level detectors in both ground and roof tank.
- Three levels detection in ground water tank:
Start – Low cut off – Common.
- Four levels detection in roof water tank:
Stop – Alternate – Parallel – Common.
- Alarm buzzer/lamp: Low level – Overload 1 – Overload 2.
- All components are installed on common base fabricated by channel steel.
- Optional protection: Dry running protection

Applications

- Domestic high-rise building, Apartment
- Hotel, Commercial building, Department store
- Factories, Industrial application
- Hospital, University, School
